JOURNAL OF THE AUDIO ENGINEERING SOCIETY

SUBJECT AND AUTHOR INDEX

VOLUME 9 - 1961 NUMBERS 1-4

Subject Index

Acoustics
- Design of Recording Studios, Acoustic Considerations in the—M. Rettinger, No. 3, p. 178
- Missle Launch Locator, the AN/TNS-5, A Modern Acoustic—R. M. Carrell and R. Richter, No. 3 p. 208
- Room Information, The Transmission of—Klaus Wendt, No. 4, p. 282
- Testing in Rooms, Loudspeaker—William B. Snow, No. 1, p. 55

Amplifiers
- Low-Noise Transistor Audio Amplifiers, The Design of —James W. Halligan, No. 2, p. 120
- Pentode Using the "Shadow Grid" Technique, A High Sensitivity Power—J. W. Trautwein and C. D. McCool, No. 2, p. 152
- Reliability Amplifiers for Speech Input Systems, High Quality High—James J. Noble, No. 2, p. 126

Audio Applications
- Listening Tests Methods and Evaluation—K. Schjonneberg and F. Olson, No. 1, p. 29
- Pentode Using the "Shadow Grid" Technique, A High Sensitivity Power—J. W. Trautwein and C. D. McCool, No. 2, p. 152
- Test Records, Some Aspects of Wear and Calibration of—Roger Anderson, No. 2, p. 111

Disc Recording and Reproduction
- Distortion, Reproduction—Its Measurement and Influence on Stereo Phonograph Cartridge Design—Philip Kantrowitz, No. 2, p. 115
- Pickup Cartridge, Design of a Stereophonic—G. A. Morrell, Jr., No. 3, p. 215
- Recording, Practical Aspects of High-Fidelity Disk. Part 2—Carlos E. R. A. Moura, No. 1, p. 60
- Test Records, Some Aspects of Wear and Calibration of —Roger Anderson, No. 2, p. 111
- Tone Arm Design, New Approach to—George Alexandrovich, No. 2, p. 166

Loudspeakers
- Amplitude Control of Loudspeaker Cone Motion in the Resonance Frequency Range—Walter C. Trautman, No. 4, p. 260
- Testing in Rooms, Loudspeaker—William B. Snow, No. 1, p. 55

Magnetic Recording and Reproduction
- Bias Amplitude on Output at Very Short Wavelengths, The Effect of—John G. McKnight, No. 2, p. 98
- Distortion, Reproduction—Its Measurement and Influence on Stereo Phonograph Cartridge Design—Philip Kantrowitz, No. 2, p. 115
- Duplicating Systems for Talking Book Program, Tape—S. Himmelstein, No. 2, p. 102
- Flutter Measurements by the American Standard Method—Donald E. Morgan, No. 3, p. 232
- Interference Effects in Magnetic Recording, A Study of—J. G. Woodward and M. Pradervand, No. 4, p. 254
- Recording Process in Terms of the Preisach Representation, The Magnetic Tape—G. Schwantke, No. 1, p. 37
- Reversing Mechanism for Continuous Play of Four Track Stereo Tapes, Automatic Tape—A. L. Berg and K. M. Williamson, No. 4, p. 258
- Visible Recordings, Magnetic—W. P. Guckenburg and C. D. Mee, No. 2, p. 107

Microphones
- Dynamic Probe Microphone, A Small Unidirectional—Ernest Seeler, No. 4, p. 276
- Personal Microphones—H. F. Olson, J. Preston and J. C. Bleazey, No. 4, p. 278
- Polyester Films in Microphone Designs, The Use of—Alexis Badmaieff, No. 3, p. 218
- Wind Noise in Microphones, The Reduction of—L. R. Burroughs, No. 2, p. 168
- Wind Screens, Experimental Determination of the Effectiveness of Microphone—John C. Bleazey, No. 1, p. 48

Miscellaneous
- Education, Audio In—Edward Golub, No. 2, p. 158
- Electrostatic Earphone, The—Walter T. Selsted, No. 2, p. 145

Music and Electronics
- Electronic Music Instrument Performances, A New Tool for the Exploration of Unknown—Harald Bode, No. 4, p. 264
- Instrument Design, European Electronic Music—Harald Bode, No. 4, p. 267
- Percussive Sounds, Electronic Production of—Herb Hearne, No. 4, p. 270
- Reverberation Device for High Fidelity Systems, A New —H. E. Meinema, H. A. Johnson, and W. C. Laube, Jr., No. 4, p. 284

Psychoacoustics
- Disk Recording, Practical Aspects of High-Fidelity. Part 2—Carlos E. R. A. Moura, No. 1, p. 60
- Interchannel Mixing at High and Low Audio Frequencies, Distortion of Auditory Perspective Produced by—Donald S. McCoy, No. 1, p. 13
- Listening Tests Methods and Evaluation—K. Schjonneberg and F. Olson, No. 1, p. 29
- Psychoacoustics, What is?—Gerard G. Harris, No. 1, p. 2
- Stereophonic Effect, Effect of System Parameters on the—Harwood B. Moore, No. 1, p. 7
- Stereophony, Subjective Evaluation of Factors Affecting Two-Channel—F. K. Harvey and M. R. Schroeder, No. 1, p. 19
- Wind Screens, Experimental Determination of the Effectiveness of Microphone—John C. Bleazey, No. 1, p. 48

Reverberation
- Reverberation, "Colorless" Artificial—M. R. Schroeder and B. F. Logan, No. 3, p. 192
- Reverberation Device for High Fidelity Systems, A New —H. E. Meinema, H. A. Johnson, and W. C. Laube, Jr., No. 4, p. 284
- Reverberation Facilities for Auditoriums and Audio Systems, Artificial—G. R. Crane and G. A. Brookes, No. 3, p. 198
- Reverberation System for Home Entertainment Equipment—Harrison E. Dow and Maurice E. Swift, No. 3, p. 187

Sound Systems
- Consoles, New Trends for Stereo Recording—Philip C. Erhorn, No. 4, p. 272
- High Reliability Amplifiers for Speech Input Systems, High Quality—James J. Noble, No. 2, p. 126
- Master Control Facilities in the Loeb Student Center, New York University, Broadcasting Closed Circuit

and Via Public Transmission Channels Through—Werner Freitag, No. 3, p. 225
Public Address Systems, Design Considerations of Portable Transistorized—Joel Julie, No. 4, p. 290
Recording Studios, Acoustic Considerations in the Design of—M. Rettinger, No. 3, p. 178
Reverberation, "Colorless" Artificial—M. R. Schroeder and B. F. Logan, No. 3, p. 192
Reverberation Device for High Fidelity Systems, A New—H. E. Meinema, H. A. Johnson, and W. C. Laube, Jr., No. 4, p. 284
Reverberation Facilities for Auditoriums and Audio Systems, Artificial—G. R. Crane and G. A. Brookes, No. 3, p. 198
Reverberation System for Home Entertainment Equipment—Harrison E. Dow and Maurice E. Swift, No. 3, p. 187
Room Information, The Transmission of—Klaus Wendt, No. 4, p. 282
Sound Control Techniques for the Legitimate Theatre and Opera—Harold Burris-Meyer and Vincent Mallory, No. 3, p. 184
Stereophonic Effect, Effect of System Parameters on the—Harwood B. Moore, No. 1, p. 7
Transmission System for AM Broadcasting, A Stereophonic—John M. Hollywood and Marvin Kronenberg, No. 2, p. 140

Stereo
Consoles, New Trends for Stereo Recording—Philip C. Erhorn, No. 4, p. 272
Delay Line for Stereophonic Broadcasting—R. E. Lafferty, No. 2, p. 134
Earphones and Binaural Loudspeakers, Stereophonic—B. B. Bauer, No. 2, p. 148
Pickup Cartridge, Design of a Stereophonic—G. A. Morrell, Jr., No. 3, p. 215
Reproduction Distortion—Its Measurement and Influence on Stereo Phonograph Cartridge Design—Philip Kantrowitz, No. 2, p. 115
Reversing Mechanism for Continuous Play of Four Track Stereo Tapes, Automatic Tape—A. L. Berg and K. M. Williamson, No. 4, p. 258
Subjective Evaluation of Factors Affecting Two-Channel Stereophony—F. K. Harvey and M. R. Schroeder, No. 1, p. 19
System Parameters on the Stereophonic Effect, Effect of—Harwood B. Moore, No. 1, p. 7
Transmission System for AM Broadcasting, A Stereophonic—John M. Hollywood and Marvin Kronenberg, No. 2, p. 140

Underwater Sound
Sonic Window in the Ocean—Daniel W. Painter, II, No. 3, p. 205
